** With credit card orders - for your protection and ours - we request the additional "V-code" Verification Code from your credit card. This new additional number (fraud protection) checking system has been created so that if someone does have possession of your credit card numbers they also need to have possession of your card in order to know what your v-code numbers are. The Verification Code is a three-digit number on the **back** of your credit card. The full credit card number is reprinted in the signature box and at the end of the number is the Verification Code.*
